2. RATINGS

Ratings: S & P: AA- (Negative Outlook)

Moody's: A2 (Stable Outlook)

Fitch: A (Stable Outlook)

Each of S&P, Moody's and Fitch is established and operating in the European Community and registered under the CRA Regulation, as set out within the list of registered CRAs by ESMA (<http://esma.europa.eu/page/List-registered-and-certified-CRAs>).

For the purposes of the above, "**S&P**" means Standard & Poor's Ratings Services, a Division of the McGraw Hill Companies Inc., "**Moody's**" means Moody's Investors Service Limited, "**Fitch**" means Fitch Ratings Ltd, and "**CRA Regulation**" means Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies.

S&P: AA-:

AA: An obligation rated 'AA' differs from the highest-rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong. The ratings may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

Outlook "**negative**" means a rating may be lowered

Moody's: A2:

A : Obligations rated A are considered upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Outlook **stable** means that the rating is not likely to change.

Fitch: A :

A: High credit quality.

'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The modifiers "+", "++" or "-" may be appended to a rating to denote relative status within major rating categories.

Rating Outlooks indicate the direction a rating is likely to move over a one- to two-year period. They reflect financial or other trends that have not yet reached the level that would trigger a rating action, but which may do so if such trends continue. The majority of Outlooks are generally **Stable**, which is consistent with the historical migration experience of ratings over a one- to two-year period.

The above mentioned ratings are the credit ratings assigned to the Programme: Yes

The above mentioned ratings are specific credit ratings only assigned to this Tranche of Notes: No
