- (ii) Estimates of total expenses related to admission to trading: Not Applicable

2. RATINGS

Ratings: The Notes to be issued have been rated by the following credit rating agencies:

S & P: A+ (Negative Outlook)

Moody's: A2 (Stable Outlook)

Fitch: A+ (Stable Outlook)

Each of S&P, Moody's and Fitch is established and operating in the European Community and registered under the CRA Regulation, as set out within the list of registered CRAs dated 6 January 2012¹ by ESMA (<http://esma.europa.eu/page/List-registered-and-certified-CRAs>).

For the purposes of the above, "**S&P**" means Standard & Poor's Ratings Services, a Division of the McGraw Hill Companies Inc., "**Moody's**" means Moody's Investors Service Limited, "**Fitch**" means Fitch Ratings Ltd, and "**CRA Regulation**" means Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies.

S&P: A+:

A: An obligation rated 'A' means a strong capacity to meet financial commitments, but somewhat susceptible to adverse economic conditions and changes in circumstances.

The ratings may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

Outlook "**negative**" means a rating may be lowered

Moody's: A2:

A : Obligations rated A are considered upper-medium grade and are subject to low credit risk.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Outlook "**stable**" means that the rating is not likely to change.

Fitch: A+ :

A: High credit quality.

'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

¹ Update to make reference to the latest available list of rating agencies registered under the CRA Regulation on the ESMA website.

The modifiers “+” or “-“ may be appended to a rating to denote relative status within major rating categories.

Rating Outlooks indicate the direction a rating is likely to move over a one- to two-year period. They reflect financial or other trends that have not yet reached the level that would trigger a rating action, but which may do so if such trends continue. The majority of Outlooks are generally Stable, which is consistent with the historical migration experience of ratings over a one- to two-year period.

the above mentioned ratings are the credit Yes ratings assigned to the Programme:

the above mentioned ratings are specific No credit ratings only assigned to this Tranche of Notes:
