	Statements of no	significant or material adverse change		
	There has been no significant change in the financial or trading position of the BNPP Group s 30 September 2013 and there has been no material adverse change in the prospects of the B Group since 31 December 2012.			
	There has been no significant change in the financial or trading position of BP2F since 30 Ju 2013 and there has been no material adverse change in the prospects of BP2F since 31 Decemb 2012.			
B.13	Events impacting the Issuer's knowledge there have recent events which are to a material extent relevant to the extension of the Issuer's solvency since 31 December 2012.			
B.14	Dependence upon other group entities	The Issuer is dependent upon BNPPF and other members of the BNPP Group. See also Element B.5 above.		
B.15	Principal activities	The Issuer's main object is to grant loans to BNP Paribas Fortis SA/NV and its affiliates. In order to implement its main object, BP2F may issue bonds or similar securities, raise loans, with or without a guarantee and in general have recourse to any sources of finance. BP2F can carry out any operation it perceives as being necessary to the accomplishment and development of its business, whilst staying within the limits of the Luxembourg law of 10 August 1915 on commercial companies (as amended).		
B.16	Controlling shareholders	BNP Paribas Fortis SA/NV holds 99.995% of the share capital of the Issuer.		
B.17	Solicited credit ratings	The Securities have not been rated.		
B.18	Description of the Guarantee	The Securities will be unconditionally and irrevocably guaranteed by BNP Paribas Fortis SA/NV ("BNPPF" or the "Guarantor") pursuant to an English law deed of guarantee executed by the Guarantor on 3 June 2013 (the "Guarantee"). The obligations under the Guarantee constitute direct, unconditional, unsubordinated and unsecured obligations of BNPPF and rank pari passu (subject to mandatorily preferred debts under applicable laws) equally and rateably with all other present and future outstanding unsecured and unsubordinated obligations of BNPPF.		
B.19	Information about the Guarantor	Please see below in the case of BNPPF.		
B.19/ B.1	Legal and commercial name of the Guarantor	BNP Paribas Fortis SA/NV, acting under the commercial name of BNP Paribas Fortis		

B.19/ B.2	Domicile/ legal form/ legislation/ country of incorporation	The Guarantor was incorporated as a public company with limited liability ("société anonyme/naamloze vennootschap") under the laws of Belgium with its registered office at 1000 Brussels, Montagne du Parc 3 and is licensed as a bank.
B.19/ B.4b	Trend information	Macroeconomic Conditions. BNPPF's results of operations are affected by the macroeconomic and market environment. Given the nature of its business, BNPPF is particularly susceptible to macroeconomic and market conditions in Europe, which have experienced disruptions in recent years. While global economic conditions generally improved over the course of 2012, growth prospects diverge for advanced and developing economies in 2013 and going forward. In the Euro-zone, sovereign spreads came down in 2012 from historically high levels, although uncertainty remains over the solvability of certain sovereigns and the extent to which E.U. member states are willing to provide additional financing. Legislation and Regulations Applicable to Financial Institutions. BNPPF is affected by legislation and regulations applicable to global financial institutions, which are undergoing significant change in the wake of the global financial crisis. New measures that have been proposed and adopted include more stringent capital and liquidity requirements, taxes on financial transactions, restrictions and taxes on employee compensation, limits on commercial banking activities, restrictions of types of financial products, increased internal control and transparency requirements, more stringent business conduct rules, mandatory reporting and clearing of derivative transactions, requirements to mitigate risks relating to OTC derivatives and the creation of new and strengthened regulatory bodies. New or proposed measures that affect or will affect BNPPF include the Basel 3 and CRD4 prudential frameworks, the related requirements announced by the EBA, the designation of BNPPF as a systemically important financial institution by the FSB, the Belgian banking law, the E.U. Liikanen proposal and the Federal Reserve's proposed framework for the regulation of foreign banks.

Element	Title			
D.2	Key risks regarding the Issuer and the Guarantor	There are certain factors that may affect the Issuer's ability to fulfil its obligations under the Securities issued under the Programme and the Guarantor's obligations under the Guarantee.		
		The following is a summary of some of the additional investment considerations relating to the business of BP2F:		
		(a) The primary credit protection for Securities issued by BP2F will derive from the guarantees given by BNPPF.		
		(b) BP2F's ability to perform its obligations in respect of the structured return on structured securities may depend on the ability of its hedging counterparties to meet their obligations under any hedge.		
		(c) BP2F's ability to make payments under the Securities may depend on the operating performance of those companies to which the proceeds of the Securities are lent.		
		(d) The financial condition of the operating companies to which the proceeds of the Notes are lent may deteriorate and this may affect BP2F's ability to make payments under the Securities which it issues.		
		(e) During deteriorating or challenging economic conditions BP2F may find it difficult to raise further finance.		
		(f) Transfer pricing tax rules in Luxembourg generate additional costs, which may vary from time to time.		
		The following is a summary of some of the investment considerations relating to the business of BNPPF:		
		(a) Difficult market and economic conditions including, without limitation, concerns regarding the ability of certain countries in the eurozone to refinance their debt obligations, could in the future have a material adverse effect on the operating environment for financial institutions and hence on BNPPF's financial condition, results of operations and cost of risk.		
		(b) Legislative action and regulatory measures taken in response to the global financial crisis may materially impact BNPPF and the financial and economic environment in which it operates.		
		(c) BNPPF's access to and cost of funding could be adversely affected by a further deterioration of the euro zone sovereign debt crisis, worsening		

Element	Title		
Liemene			economic conditions, a ratings downgrade or other factors.
		(d)	The soundness and conduct of other financial institutions and market participants could adversely affect BNPPF.
		(e)	BNPPF may incur significant losses on its trading and investment activities due to market fluctuations and volatility.
		(f)	A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPPF's results of operations and financial condition.
		(g)	BNPPF may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.
		(h)	BNPPF's hedging strategies may not prevent losses.
		(i)	Significant interest rate changes could adversely affect BNPPF's revenues or profitability.
		(j)	Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses.
		(k)	Notwithstanding BNPPF's risk management policies, procedures and methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses.
		(1)	While each of BNPPF's businesses manages its operational risks, these risks remain an inherent part of all of BNPPF's businesses.
		(m)	BNPPF has significant counterparty risk exposure and exposure to systemic risks.
		(n)	BNPPF's competitive position could be harmed if its reputation is damaged.
		(0)	An interruption in or a breach of BNPPF's information systems may result in lost business and other losses.
		(p)	Litigation or other proceedings or actions may adversely affect BNPPF's business, financial condition and results of operations.
		(q)	Uncertainty linked to fair value accounting and use of estimates.
		(r)	Risks and uncertainties connected to the integration and optimization of the operations of BNPPF following its acquisition by BNP Paribas.
		(s)	A deterioration of the credit rating of BNP Paribas of its debt quality could adversely affect BNPPF.
		(t)	Unforeseen external events can interrupt BNPPF's operations and cause substantial losses and additional costs.
		(u)	BNPPF is subject to extensive and evolving regulatory regimes in the

Element	Title	
		countries and regions in which it operates.
		(v) Intense competition in the financial services industry could adversely affect BNPPF revenues and profitability.
D.3	Key risks regarding the Securities	There are certain factors which are material for the purposes of assessing the market risks associated with Securities issued under the Programme, including that: Securities (other than Secured Securities) are unsecured obligations.
		The trading price of the Securities is affected by a number of factors including, but not limited to, (in respect of Securities linked to an Underlying Reference) the price of the relevant Underlying Reference(s), time to expiration or redemption and volatility and such factors mean that the trading price of the Securities may be below the Final Redemption Amount or Cash Settlement Amount or value of the Entitlement.
		Exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements and, in respect of Securities linked to an Underlying Reference, potential investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities.
		Settlement may be postponed following the occurrence or existence of a Settlement Disruption Event and, in these circumstances, the Issuer may pay a Disruption Cash Settlement Price (which may be less than the fair market value of the Entitlement) in lieu of delivering the Entitlement.
		The occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Securities, cancellation (in the case of Warrants) or early redemption (in the case of Notes and Certificates) or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Securities.
		The Securities may be redeemed (in the case of Notes and Certificates) in the case of illegality or impracticability and such cancellation or redemption may result in an investor not realising a return on an investment in the Securities.
		The meetings of Holders provisions permit defined majorities to bind all Holders.
		Any judicial decision or change to an administrative practice or change to English law or French law, as applicable, after the date of the Base Prospectus could materially adversely impact the value of any Securities affected by it.
		A reduction in the rating, if any, accorded to outstanding debt securities of the Issuer

Element	Title	
		or Guarantor (if applicable) by a credit rating agency could result in a reduction in
		the trading value of the Securities.
		Certain conflicts of interest may arise (see Element E.4 below).
		The only means through which a Holder can realise value from the Security prior to its Exercise Date, Maturity Date or Redemption Date, as applicable, is to sell it at its then market price in an available secondary market and that there may be no secondary market for the Securities (which could mean that an investor has to exercise or wait until redemption of the Securities to realise a greater value than its trading value).
		An active secondary market may never be established or may be illiquid and this may adversely affect the value at which an investor may sell its Securities (investors may suffer a partial or total loss of the amount of their investment).
		At the commencement of the offer period, the [fixed Rate of Interest,] [Minimum Interest Rate] [Maximum Interest Rate] [Margin] [Gearing] [Gearing Up] [FR Rate] [Knock-in Level] [Knock-out Level] will not be known but the Final Terms will specify an indicative range. Prospective investors are required to make their decision to purchase the Securities on the basis of that indicative range prior to the actual [Rate of Interest][Minimum Interest Rate][Maximum Interest Rate][Margin][Gearing][Gearing Up][FR Rate][Knock-in Level][Knock-out Level] which will apply to the Securities being notified to them. Notice of the actual rate, level or percentage, as applicable, will be published in the same manner as the publication of the Final Terms.
		In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference (including Hybrid Securities) and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include: exposure to a fund share or unit, similar risks to a direct fund investment, that the amount payable on Fund Securities may be less than the amount payable from a direct investment in the relevant Fund(s), extraordinary fund events which may have an adverse effect on the value or liquidity of the Securities.
D.6	Risk warning	See Element D.3 above.
		In the event of the insolvency of the Issuer or if it is otherwise unable or unwilling to repay the Securities when repayment falls due, an investor may lose all or part of his investment in the Securities.
		If the Guarantor is unable or unwilling to meet its obligations under the Guarantee when due, an investor may lose all or part of his investment in the Securities.
