B.1	Legal and commercial name of the Issuer	BNP Paribas Fortis Funding (" BP2F " or the " Issuer ").
B.2	Domicile/ legal form/ legislation/ country of incorporation	The Issuer was incorporated as a <i>société anonyme</i> under the laws of the Grand Duchy of Luxembourg having its registered office at rue Eugène Ruppert 19, L-2453 Luxembourg, Grand Duchy of Luxembourg.
B.4b	Trend information	<p>Macro-economic environment</p> <p>Market and macroeconomic conditions affect BP2F's results. The nature of BP2F's business makes it particularly sensitive to market and macroeconomic conditions in Europe, which have been difficult and volatile in recent years.</p> <p>In 2013, the global economy began to move towards equilibrium, with several emerging countries slowing down and a slight recovery in the developed countries. In 2013, global economic conditions remained generally stable as compared to 2012. IMF and OECD economic forecasts¹ for 2014 generally indicate a renewal of moderate growth in developed economies albeit less strong and uniform in the Euro-Zone. Their analysts consider that uncertainties remain regarding the strength of the recovery, particularly in light of the U. S. Federal Reserve's announcement in December 2013 that it would gradually reduce ("taper") its stimulus program, and in the Euro-zone, where a risk of deflation exists.</p> <p>Within the Euro-zone, sovereign credit spreads continued to decrease in 2013 following the decrease recorded in 2012 from the previous historically high levels. The financial condition of certain sovereigns has markedly improved but there remains uncertainty as to the solvency of some others.</p>
B.5	Description of the Group	BNP Paribas Fortis Funding is a subsidiary of BNP Paribas Fortis SA/NV and acts as a financing vehicle for BNP Paribas Fortis SA/NV and the companies controlled by BNP Paribas Fortis SA/NV. BNP Paribas Fortis SA/NV is in turn a subsidiary of BNP Paribas which is the ultimate holding company of a group of companies and manages financial operations for those subsidiary companies (together the " BNPP Group ").
B.9	Profit forecast or estimate	<p>The Group's 2014-2016 business development plan confirms the universal bank business model centred on its three pillars: Retail Banking, CIB and Investment Solutions. The goal of the 2014-2016 business development plan is to support clients in a changing environment. It targets a return on equity of at least 10% by 2016.</p> <p>The Group has defined the five following strategic priorities for 2016:</p>

During 2015, the activities of the perimeter concerned will clear US dollars through a third party bank instead of clearing through BNP Paribas New York and all necessary measures are being taken to ensure smooth transition and no material impact for the clients concerned. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Section D – Risks

Element	Title	
D.2	Key risks regarding the Issuer and the Guarantor	<p>There are certain factors that may affect the Issuer's ability to fulfil its obligations under the Securities issued under the Programme and the Guarantor's obligations under the Guarantee.</p> <p>The following is a summary of some of the additional investment considerations relating to the business of BP2F:</p> <ul style="list-style-type: none"> (a) The primary credit protection for Securities issued by BP2F will derive from the guarantees given by BNPPF. (b) BP2F's ability to perform its obligations in respect of the structured return on structured securities may depend on the ability of its hedging counterparties to meet their obligations under any hedge. (c) BP2F's ability to make payments under the Securities may depend on the operating performance of those companies to which the proceeds of the Securities are lent. (d) The financial condition of the operating companies to which the proceeds of the Notes are lent may deteriorate and this may affect BP2F's ability to make payments under the Securities which it issues. (e) During deteriorating or challenging economic conditions BP2F may find it difficult to raise further finance.

Element	Title	
		<p>(f) Transfer pricing tax rules in Luxembourg generate additional costs, which may vary from time to time.</p>
		<p>The following is a summary of some of the investment considerations relating to the business of BNPPF:</p> <p>(a) Difficult market and economic conditions including, without limitation, concerns regarding the ability of certain countries in the eurozone to refinance their debt obligations, could in the future have a material adverse effect on the operating environment for financial institutions and hence on BNPPF's financial condition, results of operations and cost of risk.</p> <p>(b) Legislative action and regulatory measures taken in response to the global financial crisis may materially impact BNPPF and the financial and economic environment in which it operates.</p> <p>(c) BNPPF's access to and cost of funding could be adversely affected by a further deterioration of the euro zone sovereign debt crisis, worsening economic conditions, a ratings downgrade or other factors.</p> <p>(d) The soundness and conduct of other financial institutions and market participants could adversely affect BNPPF.</p> <p>(e) BNPPF may incur significant losses on its trading and investment activities due to market fluctuations and volatility.</p> <p>(f) A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPPF's results of operations and financial condition.</p> <p>(g) BNPPF may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.</p> <p>(h) BNPPF's hedging strategies may not prevent losses.</p> <p>(i) Significant interest rate changes could adversely affect BNPPF's revenues or profitability.</p> <p>(j) Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses.</p> <p>(k) Notwithstanding BNPPF's risk management policies, procedures and methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses.</p> <p>(l) While each of BNPPF's businesses manages its operational risks, these risks remain an inherent part of all of BNPPF's businesses.</p> <p>(m) BNPPF has significant counterparty risk exposure and exposure to systemic risks.</p>

Element	Title	
		<p>(n) BNPPF's competitive position could be harmed if its reputation is damaged.</p> <p>(o) An interruption in or a breach of BNPPF's information systems may result in lost business and other losses.</p> <p>(p) Litigation or other proceedings or actions may adversely affect BNPPF's business, financial condition and results of operations.</p> <p>(q) Uncertainty linked to fair value accounting and use of estimates.</p> <p>(r) Risks and uncertainties connected to the integration and optimization of the operations of BNPPF following its acquisition by BNP Paribas.</p> <p>(s) A deterioration of the credit rating of BNP Paribas of its debt quality could adversely affect BNPPF.</p> <p>(t) Unforeseen external events can interrupt BNPPF's operations and cause substantial losses and additional costs.</p> <p>(u) BNPPF is subject to extensive and evolving regulatory regimes in the countries and regions in which it operates.</p> <p>(v) Intense competition in the financial services industry could adversely affect BNPPF revenues and profitability.</p>
D.3	Key risks regarding the Securities	<p>There are certain factors which are material for the purposes of assessing the market risks associated with Securities issued under the Programme, including that Securities (other than Secured Securities) are unsecured obligations.</p> <p>The trading price of the Securities is affected by a number of factors including, but not limited to, (in respect of Securities linked to an Underlying Reference) the price of the relevant Underlying Reference(s), time to expiration or redemption and volatility and such factors mean that the trading price of the Securities may be below the Final Redemption Amount or Cash Settlement Amount or value of the Entitlement.</p> <p>Exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements and, in respect of Securities linked to an Underlying Reference, potential investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities.</p> <p>Settlement may be postponed following the occurrence or existence of a Settlement Disruption Event and, in these circumstances, the Issuer may pay a Disruption Cash Settlement Price (which may be less than the fair market value of the Entitlement) in lieu of delivering the Entitlement.</p> <p>The occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Securities, cancellation (in</p>

Element	Title	
		<p>the case of Warrants) or early redemption (in the case of Notes and Certificates) or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Securities.</p> <p>Expenses and taxation may be payable in respect of the Securities.</p> <p>The Securities may be redeemed (in the case of Notes and Certificates) in the case of illegality or impracticability and such cancellation or redemption may result in an investor not realising a return on an investment in the Securities.</p> <p>The meetings of Holders provisions permit defined majorities to bind all Holders.</p> <p>Any judicial decision or change to an administrative practice or change to English law or French law, as applicable, after the date of the Base Prospectus could materially adversely impact the value of any Securities affected by it.</p> <p>A reduction in the rating, if any, accorded to outstanding debt securities of the Issuer or Guarantor (if applicable) by a credit rating agency could result in a reduction in the trading value of the Securities.</p> <p>Certain conflicts of interest may arise (see Element E.4 below).</p> <p>The only means through which a Holder can realise value from the Security prior to its Exercise Date, Maturity Date or Redemption Date, as applicable, is to sell it at its then market price in an available secondary market and that there may be no secondary market for the Securities (which could mean that an investor has to exercise or wait until redemption of the Securities to realise a greater value than its trading value).</p> <p>An active secondary market may never be established or may be illiquid and this may adversely affect the value at which an investor may sell its Securities (investors may suffer a partial or total loss of the amount of their investment).</p> <p>In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference (including Hybrid Securities) and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include: exposure to a fund share or unit, similar risks to a direct fund investment, that the amount payable on Fund Securities may be less than the amount payable from a direct investment in the relevant Fund(s), extraordinary fund events which may have an adverse effect on the value or liquidity of the Securities.</p>
D.6	Risk warning	<p>See Element D.3 above.</p> <p>In the event of the insolvency of the Issuer or if it is otherwise unable or unwilling to repay the Securities when repayment falls due, an investor may</p>

		lose all or part of his investment in the Securities. If the Guarantor is unable or unwilling to meet its obligations under the Guarantee when due, an investor may lose all or part of his investment in the Securities.
