2. RATINGS

Ratings: The Notes to be issued have been rated by the following credit rating agencies:

S & P: AA negative

Moody's: A1 stable

Fitch: A+ stable

S&P: AA

AA: An obligation rated 'AA' differs from the highest-rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

Outlook **negative** means that the rating may be lowered.

Moody's: A1:

A : Obligations rated A are considered upper-medium grade and are subject to low credit risk.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Outlook **stable** means that the rating is not likely to change.

Fitch: A+

A: High credit quality.

'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the 'AAA' Long-term rating category, to categories below 'CCC', or to Short-term ratings other than 'F1'. (The +/- modifiers are only used to denote issues within the CCC category, whereas issuers are only rated CCC without the use of modifiers.)

Outlook **stable** means that the rating is not likely to change.
