PART B – OTHER INFORMATION

1. LISTING AND ADMISSION TO TRADING

- (i) Listing and admission to trading: Application has been made by the Issuer (or on its behalf) for the Notes to be admitted to listing on the official list and to trading on the Luxembourg Stock Exchange with effect from 18 January 2012.
- (ii) Estimates of total expenses related to admission to trading: Minimum EUR 1,975 for a Principal Amount of minimum NOK 100,000,000.

2. RATINGS

- Ratings: The Notes to be issued have been rated by the following credit rating agencies:
- S & P: AA- (Outlook stable)
- Moody's: A1 (under review)
- Fitch: A+ (Credit watch negative)

S&P: AA-:

AA: An obligation rated 'AA' differs from the highest-rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

Outlook **stable** means that the rating is unlikely to change between six months and two years.

Moody's: A1:

A : Obligations rated A are considered upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

A "**Rating Under Review**" designation indicates that the entity has one or more ratings under review for possible change (for a possible upgrade in the current case), and thus overrides any outlook designation (that was "stable" before the announcement by Moody's of the long term rating of Fortis Bank NV/SA being under review).

Fitch: A+:

A: High credit quality.

'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the 'AAA' Long-term rating category, to categories below 'CCC', or to Short-term ratings other than 'F1'. (The +/- modifiers are only used to denote issues within the CCC category, whereas issuers are only rated CCC without the use of modifiers.)

Rating Watches indicate that there is a heightened probability of a rating change and the likely direction of such a change. These are designated as "Positive", indicating a potential upgrade, "Negative", for a potential downgrade, or "Evolving", if ratings may be raised, lowered or affirmed. However, ratings that are not on Rating Watch can be raised or lowered without being placed on Rating Watch first, if circumstances warrant such an action.

A Rating Watch is typically event-driven and, as such, it is generally resolved over a relatively short period. The event driving the Watch may be either anticipated or have already occurred, but in both cases, the exact rating implications remain undetermined. The Watch period is typically used to gather further information and/or subject the information to further analysis. Additionally, a Watch may be used where the rating implications are already clear, but where a triggering event (e.g. shareholder or regulatory approval) exists. The Watch will typically extend to cover the period until the triggering event is

resolved or its outcome is predictable with a high enough degree of certainty to permit resolution of the Watch.

the above mentioned ratings are the credit ratings Yes assigned to the Programme:
